

Chemist (B.Sc.) or Laboratory Technician for purification / isolation

HPC Standards GmbH is a globally operating and constantly growing company based in Cunnersdorf near Leipzig. Our main field of activity is the production of high purity reference substances for residue analysis.

To expand our department for the provision of native reference substances and analytical standards, we are looking for a chemist (B.Sc.) or laboratory technician (m/f/d/x) to start as soon as possible.

Your tasks:

- Independent purification of formulated pesticides and raw products of the synthesis department by crystallization, chromatography and distillation
- Identity and purity determination using HPLC, LC-/GC-MS and NMR spectroscopy
- Evaluation and documentation of results
- Assumption of further areas of responsibility if suitable

Your requirements:

- Completed studies in chemistry (B.Sc.), training as a laboratory technician or comparable qualification with a focus on organic chemistry
- Careful, clean and structured way of working as well as reliability paired with teamwork and communication skills
- proficiency in written and spoken technical English
- Several years of professional experience in the organic fine chemicals industry is a plus

What you can expect:

- a challenging position with changing projects
- a young, international team with flat hierarchies in a modern and secure workplace
- flexible working hours
- company pension scheme
- annual company events
- regular further training
- job bike

Have we piqued your interest? Then send us your complete application documents by e-mail, stating your salary expectations and your earliest possible starting date, to **hr@hpc-standards.com**.
