

## Chemical laboratory technician / CTA (m/w/d)

HPC Standards GmbH is a globally active and steadily growing company based in Jesewitz near Leipzig. Our main area of activity is the production of high-purity reference substances for residue analysis.

To strengthen our analytics team, we are looking for a **chemical laboratory assistant / CTA (m/f/d)** for special analytics to start as soon as possible.

### Your responsibilities:

- Identity and purity determination using HPLC (CAD, ELSD), GC, LCMS, GCMS, and NMR spectroscopy
- Evaluation of analysis results and verification of measured values
- Equipment maintenance
- Maintenance of the associated databases

### Your requirements:

- Completed training as a chemical laboratory assistant, CTA, or comparable qualification
- Careful, clean, and structured working style, as well as reliability paired with teamwork and communication skills
- Several years of professional experience in instrumental food and environmental analysis, particularly GC-MS and HPLC-MS, is a plus

### What to expect:

- challenging role with varied projects

- international team with flat hierarchies in a modern and secure workplace
- flexible working hours
- company pension plan
- annual company events
- opportunity for job-related training
- Company bicycle

Have we sparked your interest, and are you interested in contributing to the further development of a growing company? Then send us your complete application documents by email, stating your salary expectations and your earliest possible start date, to **hr@hpc-standards.com**.
