

Chemical laboratory technician / CTA

HPC Standards GmbH is a globally active and steadily growing company based in Jesewitz near Leipzig. Our main field of activity is the production of high-purity reference substances for residue analysis.

For expanding our capacities in the production of mixes, synthesis of compounds and assistance in the processing of orders, we are looking for chemical laboratory assistants/chemical technicians or comparable qualifications.

Your tasks:

- Laboratory work in the field of solution and mix production Identity and purity determination using HPLC and LC-/GC-MS
- Identity and purity determination using LC- and GC-MS
- Evaluation and documentation of the results
- Organic synthesis of reference standards
- assistance in the processing of orders

Your requirements:

- Completed training as a chemical laboratory technician, CTA or comparable qualification
- Ideally several years of work experience in organic synthesis/preparation of solutions
- Ideally several years of professional experience in instrumental food and environmental analysis, in particular GC-MS and HPLC-MS
- Careful, clean and structured way of working as well as reliability and ability to work in a team

- Advanced level in English and/or German

What you can expect:

- international team with flat hierarchies in a modern and secure workplace
- flexible working hours
- company pension scheme
- annual company events
- free parking spaces
- Jobrad

Have we aroused your interest? Then send us your complete application documents by e-mail, stating your salary expectations and your earliest possible starting date, to **hr@hpc-standards.com**.
